

# BE PROTECTED WITH THE XTREME AUTO MOTO PROTECTION PLAN

Repair costs will continue to rise and the likelihood of major mechanical failure on your vehicle will increase. Service agreements are smart, cost-effective protection against unexpected, inevitable future repair costs!

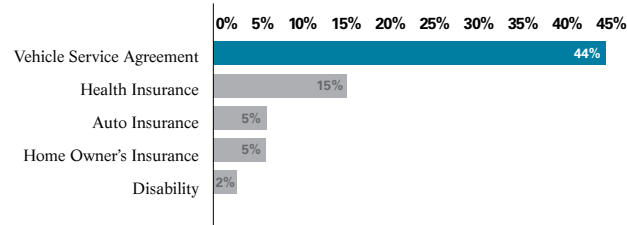

*Empowering Confidence  
for the Road Ahead*

## The Top 10 Reasons to Own and Protect Your Auto Moto:

- One major car repair can cost as much as a brand new Auto Moto.
- At 83 MPG, it's friendly to your wallet, and it's friendly to the environment.
- Insuring a car is, on average, over 3x as much \$ as insuring the Auto Moto. No matter how good your driving record is.
- The average car emits over 11k lbs of CO2 annually; the Auto Moto emits less than a quarter of that!
- Other drivers can't help but check out the Auto Moto on the road, which means higher visibility, and a safer journey.
- Because life is too short for traffic.
- A car has a tough time squeezing in between other cars in traffic.
- Your neighbor doesn't have one. Yet.
- If you're a business owner, a fleet of Auto Motos is much more cost effective than a fleet of cars.
- If a car battery dies, you need another car to jump it. If the Auto Moto's battery dies, you only need a power outlet.

## Frequency of Consumer Insurance Use:

# XTREME AUTO MOTO COMPONENT COVERAGE

## ENGINE

All internally lubricated parts including: camshaft and bearings, connecting rods and bearings, crankshaft and main bearings, internal reed valves (where fitted), oil pump, pins, rocker arms, shafts and bushings, timing gears/chains and/or belts, transfer port valves, valves, valve springs, guides and seats, engine mounts, manifolds, valve covers. Engine head(s), engine block, and cylinder are covered only if damage is a result of a mechanical breakdown of a covered engine part.

## TURBOCHARGER

Internally lubricated parts of the turbocharger. Housing is covered only if damage is a result of a mechanical breakdown of a covered turbocharger part.

## TRANSMISSION

All internally lubricated parts contained within the transmission case, all gears, bearings, internal drive gears and chains, internal selector mechanism, transmission mounts. Transmission case is covered only if damage is a result of a mechanical breakdown of a covered transmission part. (Clutch assembly is NOT covered.)

## PRIMARY DRIVE

All internally lubricated parts contained within the primary case. All gears, bearings, internal drive gears and chains, internal selector mechanism, transmission mounts. Primary case is covered only if damage is a result of a mechanical breakdown of a covered primary drive part. (Clutch assembly, drive chain and drive chain sprockets are NOT covered.)

## FINAL DRIVE (SHAFT DRIVEN MODELS ONLY)

All internally lubricated parts contained within the drive shaft and final drive housing. Ball /universal joints. Drive shaft and final drive housing is covered only if damage is a result of a mechanical breakdown of a covered final drive part. (Final drive chains/belts or sprockets, or consequential damages due to chain breakage are NOT covered.)

## STEERING

Upper and lower steering stem bearing or bushings, axle, handle bar, steering stem nut and tie rod ends. Steering stem shaft is covered only if damage is a result of mechanical breakdown of a covered steering part.

## SUSPENSION

All internally lubricated parts located within the front fork tubes and front hub. Swing arm bearings or bushings, front and rear wheel bearings, swing arm, upper and lower control arms, ball joints, king pins, bushing and spindle. Front fork tubes are covered only if damage results from a mechanical breakdown of a covered suspension part.

## BRAKES

Brake backing plates, brake hubs, calipers, master cylinder, hydraulic lines and fittings, drum brake actuating cam, securing hardware. (Disc brake pads and brake shoes are NOT covered.)

## ELECTRICAL

Alternator, coils, magneto, manually operated switches, rectifiers, rotors, starter/solenoid, stators, voltage regulator, electronic ignition control modules, electronic fuel injection control module and its sensors, wiring harness assembly.

## GAUGES

Fuel gauge, speedometer, tachometer, temperature gauge, amp gauge, oil gauge.

## FUEL SYSTEM

Fuel tank, petcock, fuel cap, fuel lines, fuel injectors, fittings and seals.

## COOLING SYSTEM

Fan, fan motor, radiator.

## FLUIDS

Replacement of any fluid required in the repair or replacement of any vehicle component covered by this service agreement.

## SEALS & GASKETS

Seals and gaskets on all listed components. Seals and gaskets are NOT covered on USED VEHICLES, unless required in connection with a covered repair.

## REPLACEMENT PARTS

The administrator reserves the right to and may request to replace covered parts with original equipment manufacturer parts, remanufactured parts, or used parts.

## SAVE BIG ON FUTURE REPAIRS!

### PLANS ALSO INCLUDE GREAT BENEFITS

- Reimbursement of fuel pick-up and delivery charges.\*\*
- Reimbursement of out-of-pocket costs for substitute transportation while your vehicle is being repaired.
- Roadside service for minor mechanical issues, flat tires, dead batteries, and if your out of gas or your engine needs fluids.\*
- Towing and onsite locksmith services.\*

\* On-Road Motorcycles ONLY.

\*\* NON On-Road Motorcycles ONLY

Restrictions & limitations may apply. See contract for complete details.

### ABS OPTION

ABS master cylinder, ABS Electronic brake control module, wheel speed sensors, and ABS wiring (New On-Road Motorcycle Only).

### SIDE CAR OPTION

Wheel bearings, leaf springs, coil springs, axle(s), hubs, and wiring. (On-Road Motorcycle Only).

### SEALS & GASKETS OPTION

Seals and gaskets on all listed components. (Used On-Road Motorcycle Only).

### OPTIONAL TRAILER PACKAGE

Suspension: Springs Brake. Components: Master cylinder, and hydraulic brake actuator. Axle: Wheel bearings, axles, and hubs. Frame: Couplers, and rollers. Electrical: Main wiring harness, and electrical connectors. Hitch Latch: Latch assembly (if serviceable).

### OPTIONAL TRIP INTERRUPTION PACKAGE

In the event of Mechanical Breakdown of a covered component or part, we will reimburse you a maximum of \$75 per day, not to exceed a total of \$375 (five days), for expenses incurred by you for meals and/or lodging provided: You cannot operate your Vehicle due to Mechanical Breakdown covered by this Service Agreement, are more than two hundred miles away from home, and expenses are incurred between the time of breakdown and the time of repairs are completed. See contract for complete details. (On-Road Motorcycle Only).

This is not a contract. This is intended as a general outline of coverages and benefits. Be sure to read your service agreement as all benefits are subject to the terms and conditions of the service agreement.
